Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13-16, 20, 22-28, 31-33, and 35 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brotto (USP 6,175,211). Brotto discloses a battery charger with identification device (20), a unit (10) to be charge with battery (11), a connections (12, 15, 13, 14) removable from battery charger, arrangement (resistors 16 and 17) outside charger to determine one electrical parameter of charge upon connection of unit to battery charger via the connection element.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 17-19, 21, 29, 30, 34, and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brotto (USP 6,175,211) in view of Hahn (USP 5,847,541).

Art Unit: 2838

Brotto discloses the claimed invention, a battery pack with identification device, except for the complementary connector of the battery charger. Hahn discloses that it is known in the art to provide the complementary connector of the battery charger. It would have been obvious to one having ordinary skill in the art at the time of the invention was made to provide the complementary connector of the battery charger of Hahn with the battery pack with identification device of Brotto, in order to have a versatile device that is easily adaptable to charging portable handheld devices, like phones, PDA's and laptops.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
